We've come a long way with your help. . .

Joe McCann heads major gifts committee

As a search professional, Joe McCann has years of experience expertly matching business leaders with corporate clients. Now, he'll also be finding the right fit financially for friends of Sacred Heart who want to contribute to the school and help us grow into the next century. Much like professional searches, both parties benefit when the fit is right.

Academically, aesthetically, emotionally...

there are hundreds of reasons to give to the Capital Campaign: enhanced science programs, classrooms technically equipped for laptops, a larger dining room, a safer and more attractive entrance and exit, additional resources for financial aid and faculty development. . .

Whatever your reason for giving, please contribute now by calling Judy Becker in our Development Office: 203-532-3550.

We need \$1 million to reach our goal... We need your help to make it happen.

Photos, clockwise from the top: *With the supports and cement floor in place, the chemistry lab (to the left) begins to take shape. Fine detail shows at the roof line of the Science Center and mimics the original building. Seniors signed the beam we hoisted at the topping off ceremony. Since this full view shot was taken in April, all of the roof and most of the brick have been added.*

Now it's time to finish the building and wrap up the Capital Campaign. If you haven't given already, please contribute now. It's not the size of your gift that matters the most, it's showing your support for the Sacred Heart women of the future.
